Cabo Drilling and its predecessors have over 80 years of field experience and numerous technical innovations to its credit

Cabo Drilling Corp.: 1.888.891.8894 / Cabo Drilling (Ontario) Corp.: 1.866.796.9311 Email: info@cabo.ca

The goal of an exploration or definition drilling program is to produce accurate, quality core samples, as cost effectively as possible. Cabo Drilling understands that every client has specific requirements. Cabo Drilling's strong technical team can tailor its approach to your drill program to meet your technical, regulatory, environmental and community requirements - one size does not fit all.

Decades of safe experience, with custom-designed drills, and the ability to problem solve up-front, enables Cabo Drilling to develop workable solutions for most drilling circumstances facing the mining and exploration industry.

- ❖ 100+ Drill Rigs
- ❖ 500+ Employees

Cabo Drilling specializes in:

- Surface diamond drilling (long stroke and conventional)
