

EXPLORE A CAREER IN DIAMOND DRILLING

SURFACE DIAMOND DRILLER ASSISTANT COMMON CORE PROGRAM

WHAT IS SURFACE DIAMOND DRILLING?

Diamond encrusted drill bits are drilled into the earth to collect core samples that are evaluated to detect various types of minerals. Drilling can be performed in many environments around the globe.

TRAIN WITH THE BEST!

Developed by the Haileybury School of Mines and the Canadian diamond drilling industry, this 10-week program will provide practical experience delivered by skilled instructors who have drilled world wide.

APPLY NOW

In 2012, 82% of our students were still working after 12 months in the industry. 25% of our graduates have successfully attained a driller (runner) status within a year.

PROGRAM ELIGIBLE FOR SECOND CAREER FUNDING!
