James Goodwin  
Human Resources and Safety Coordinator  
CABO Drilling Corporation  
3<sup>rd</sup> Floor, 120 Lonsdale Avenue  
Vancouver, BC V7M 2E8

Dear James:

It is a great pleasure to have the opportunity to commend CABO Drilling for its contribution to the success of the Underground and Surface Diamond Drilling program here at Corona College.

Our Underground and Surface Diamond Drilling program is structured to encompass both theoretical and practical training with a focus on safety. We have received tremendous support from Gerald Butt, Manager of CABO Drilling Atlantic in Springdale, NL in creating and delivering this program. CABO Drilling represented the mining industry to assist us in the development of the program, they supplied valuable teaching resources for hands-on classroom training, and the practical training took place exclusively at CABO Drilling sites.

In addition, CABO proved to be an invaluable and responsible partner in their level of involvement during the students' time at the sites. Guidance and mentoring from experienced employees was readily offered, as well as full access to their underground and surface drill sites. Our students experienced relevant training, ranging from core handling to grouting holes to moving drills. The emphasis on safety during classroom training was reinforced on site. This unique experience cemented the knowledge the students gained throughout their 16 week academic training and allowed the students to experience first hand what it is to be a diamond driller, resulting in a higher degree of success in their chosen fields.

CABO Drilling truly exemplifies the spirit of partnership. We look forward to training many more classes of diamond drillers in cooperation with CABO Drilling.

Sincerely,

Bernice Walker  
President/CEO
